

Life Changing! June 11, 2008
by **Carmen Cordisco**

This review is from: BELIZE SURVIVOR: Darker Side of Paradise (Paperback)

" I bought the book as a gift not really intending to read it. I was having trouble sleeping one night and went into the closet where I was keeping it until the birthday of my mother-in-law. Please understand, I had not picked up a book in years due to my trance like workaholic lifestyle. I quickly read the first few pages and found myself transformed in an era before my time walking along the beaches of Key West. It was 1:15 in the morning and three hours had passed and I was no where close to closing my eyes. My heart was beating faster and my mind full of possibilities as I began to dream like Alexis (the main character in the book). I had to force myself to fall asleep, dreaming about adventures. I woke up wide eyed the following morning with a new found inspiration to take risks and believe in myself. As I turned the last page of the book, I felt as though I had become the woman behind the story but above all else I felt sadness that my nightly hide-away was over. PLEASE WRITE A SEQUEL!!!! Run, do not walk to buy this book. This aside from the bible in my opinion is the best book ever written. Get your book signed. This lady is going to be famous!" - CJ Cordisco
