This review is from: BELIZE SURVIVOR: Darker Side of Paradise (Paperback)

This book is incredible. It was just so well done. The author's gift for creative, descriptive writing is one thing, but dealing with the subject matter and the obvious personal pain and putting it into written words - the determination, courage, intelligence, and energy to write this novel from her own experiences - I just feel the greatest tremendous respect and admiration for such an effort. Also, it is hard to express just how particularly inspiring, affirming and helpful it was in regard to my own personal life. As I neared the end of the book, there were several pages that I bookmarked because of a few lines that (were) simply amazing and of huge spiritual benefit to me. The book was a wonderful source of comfort and gave me great peace of mind.
